# LITTLE BOY IS

John Hannibal Cooper, formerly of passing away at the home of Mr. and Paintsville, but now of Chillicothe, O., passed through Louisa Wednesday morning with the body of his little boy who was killed by an automobile son Tuesday. The little follow was all on Tuesday. The little fellow was six years old. He and his sister were crossing a street when two machines from opposite directions crowded them into such close quarters that the little boy was knocked down and killed. His little wister excepted the same fate by boy was knocked down and kined. a very close margin.

The body was buried at Paintsville.

Cooper lived in Louisa a few years ago and had charge of the Singer S ing Machine company's business. It is almost prostrated over the sad ac cident and his many friends deeply sympathize with him.

#### **NOT ENOUGH FOR NURSING COURSE**

Unless there are received this week the names of more persons desiring to take the free course in nursing offed to Lawrence-co., no instruction will be given.

Up to this time five names have been received from Louisa and five from Fallsburg

The proposition was to have at least ien applications from each of four places by August 10th—Louisa, Blaine,

Webbville and Fallsburg. This is a rare opportunity and there are only three days left in which applicants may file their names with the

secretary of the Lawrence County Red Cross at Louisa. Is it possible that Lawrence county people will fail to take advantage of this important

The man who lives on a farm and the man who owns land is always anxious to have better stock. He may fancy saddle horses; he may breed beef cattle; he may build a dairy herd, or he may be producing pork; but he is interested in anyone who can tell him how to improve his stock.

W. S. Anderson, of the College of Agriculture, is a livestock enthusiast of the most pronounced type. He al-ways has things worth while to say in daughter of Rev. and Mrs. Christian his talks, things which the farmer, the breeder and the dairy man can take home with them

WAR BROUGHT CHANGE,

The housekeeper of today is a very different person from what she was few, years ago. The war has forced her to change her ideas of many things and has also made her co-operate in war work. She learned to work in sewing or rolling bandages; she learned that her family could eat and be satisfied with food which, in the days of peace, it would not even consider. She is open minded, and, therefore, ready to have Home-making, Drying, Canning, or any other topic discussed.

Miss Dora Sonnenday, of the Extension Division of the College of Agriculture, will talk at the Farmers Community Meeting on Homemaking. the housekeepers should be certain to hear what she has to say.

HE KNOWS THE FARMER.

The management of the Farmers Community Meeting is delighted to be able to announce that Dr. Fred Mutchley, late head of the Extension Division of the College of Agriculture, will deliver an evening talk on "Getting To-gether." For years Dr. Mutchler has known the farmers in a most intimate way. He is himself a farmer of ability. No question needs discussion more than that of co-operation among the men who till the soil so the doctor is sure to have a large audience out to hear him, and the audience is sure to be thoroughly satisfied.

PEOPLE ARE WONDERING.

Religion and Life appear to have een pulled a bit closer since America has been at war. Then, too, with all the many changes which have come to the country, people are wondering just how religion and life are to adjust themselves again to the new conditions. Of course, religion is solid, but' public is eager to hear men give their ideas of what will probably take place. Dr. T. H. Gronert has long beer known in Kentucky as a forceful speaker who has something to say and knows how to say it. The Farmers Community Meeting at Louisa is indeed fortunate to have him on the

O'NEAL-HIGHBARGER.

The following account of the marriage of two popular young people of Louisa and Busseyville is taken from the Catlettsburg department of the Ashland Independent and is of inter-

of her uncle, Hon. and Mrs. W. D. O'Neal, on Oakland avenue, to Lieut. Howard R. Highbarger, late of the American army, but now a civil en-gineer located at Caples, W. Va. The ceremony was performed by Rev. Mr. Bostwick, former pastor of the Meth-odist church at Louisa. The bride was charming in all white, while the handsome groom was in officer's uniform. There were only members of the O'Neal family present at this quiet and pretty wedding. The happy cou-ple both stand very high in the regard of all who know them. They will visit relatives at Louisa for a time after which they will locate at Caples where the groom holds a responsible position. Their many friends will hope for them much happiness.

#### **HOME CIRCLE COLUMN**

After all, so much in this world depends upon the way you look at things. may seem a little thing, this look ing at life from a cheerful or dismal point of view, but it is in reality a very big thing. Put on a pair of blue DR. FRED A. MILLARD Mrs. Margaret Stump, left Monday spectacles and everything boks blue so it is with the eyes of our mind. If we take a cheerful view of things, life will be far brighter. We shall not see the faults in people, but their virtues. If we look for pleasant things we shall find them, or at least, we shall think we shall find them, which is much the We are apt to find what we same. look for; therefore, let us look for light and happiness. It is all habit And it is just as easy to cultivate a week end the guest of holds here.

Recent visitors from Ashland were Mrs. Charles Haws and W. H. Maha.

Recent visitors from Ashland were Mrs. Charles Haws and W. H. Maha.

E. J. Ellison and family, of Charleston, are visiting Henderson Wells and family.

Mr. and Mrs. Sam See very delightfully entertained quite a crowd of young folks to dinner Sunday in honor of Pvt. Glenn M. Ferrell.

Misses Virginia Asche and Marie Holt returned Sunday from a few days visit at Thacker, W. Va.

Mrs. W. L. Bowe is enjoying a visit from her mother, Mrs. Prince.

And it is just as easy to cultivate a cheerful habit as a gloomy one. And when once a habit takes a strong hold of us we all know how hard it is to shake it off. Let us then cultivate a habit of cheerfulness in all circumstances of life, and a habit of not finding fault. It is not the fault finders who are going to do the great deeds and make the world richer because they have lived. No; these fault finders who have no time for anything but fault rinding. It is the cheerful people who help the world along, who make its great inventions and laws, who build its monuments, write its poems and novels, and who go down to the

> Finish every day and be done with it. For manners and for wise living it is a vice to remember. You have done what you could; some blunders and absurdities no doubt crept in: forget them as soon as you can. forget them as soon as you can. To-morrow is a new day; you shall begin it well and serenely and with too high a spirit to be cumbered with your old nonsense. This day for all that is good and fair. It is too dear with all its hopes and invitations to waste moment on the rotten yesterdays.

BE A MAN.

Foolish spending is the father of poverty. Do not be ashamed of hard work. Work for the best salaries or wages you can get, but work for half price rather than be idle. Be your own master, and do not let society or fashion swallow up your individuality hat, coat and boots. Do not eat up or wear up all you earn. Compel your selfish body to spare something for profits saved. Be stingy to your own appetite, but merciful to other's necessities. Help others and ask for no help for yourself. See that you are proud for yourself. for yourself. See that you are proud. Let your pride be of the right kind. Be too proud to be lazy; too proud to give up without conquering every difficulty; too proud to wear a coat you cannot afford to buy; too proud to be in company that you cannot keep up with expenses; too proud to lie, or steal, or cheat; too proud to be stingy.

A model husband may be a day laborer who returns to his home at night with a hard earned dollar clasped in his honest hand, and adds it to the family fund to be used to provide nec-essary comforts for the family. He shares faithfully with his wife whatever he may earn by trade or profession. When business matters perplex he does not go home with a woeful tale of his hardships and turn the bright side of his character to his associates, but he comes into his home with a cheerful face that inspires his wife with new courage after a day of perplexing duties which women alone have to meet, and in their monotony become distasteful to the most patient

Everyone feels at home in the presence of a joyous, cheerful, genial spir-lited person.

A want of proper domestic econom has ruined the peace of many a family. There are women who could carry off their husband's stores on their backs and not half try. There are men who fancy when they marr ythat they are annexing something far more valuable than Cuba, and find later that they have on hand ntohing more than a combined album, Godey's Lady's Book and medicine chest. There are two sides to the picture of home; a man who has a good wife has no right to complain though the whole world be against him, for he's in the majority.

The model housekeeper of today who s cultured and refined, and yet enjoys domestic life, who knows how to care for the money brought into the home by her husband, how to use it wisely and well for the comfort of her family, certainly understands domestic economy and should be an object lesson held up for study in the town in

A model husband does not hang up his fiddle at the door, to be taken up as he goes out to entertain outsiders and come into his home as devoid of any suggestion of music as is the face

He who can create his own happiless in the sphere in which he finds himself, has within him one of the real elements of success in business and success in winning happiness.

The heat of itself is sufficient burden without adding to it irritation over trifles and outbursts of temper be-cause of petty annoyances. Forget it.

When you converse with a gossip you talk in a graphaphone; the first person who turns the crank gets the

By G. C. BAKER, County Agent.

IT IS ONE-SIDED.

The farmer has been taught and urged to produce more food. His education, according to Prof. John T. Coulter, has been "one-sided; it is only covered one-third of the activities of the modern farmer. It has taught him to produce, but has not taught him anything about either selling the things which he has produced or about spending the money received. In an age of commercial agriculture it is as necessary to buy well and to sell well as to produce well. Any canufacturer will tell you that. When the people of the United States first realized that it was necessary to begin a systematic study of agriculture they began with a study of the production of all farm produce. At that time the chief business of the farmer was to produce things.

The time is at hand when the farmer must more and more study and when to market what he has produced. The day is at hand when cooperation will secure a profit when the go-it-alone plan will not get a living

AGENT IS "HANDY MAN."

The county agent has read with a great deal of interest a recent editorial in Hoard's Dairyman headed "The County Agent." The editorial is too long to be reproduced here in full, but a few extracts are given below to show the attitude of a great dairy paper to-

ward the county agent and his work:
"In this work, as in the work of farming or in any other business or profession, there will always be fail-ures, but we do not judge the whole industry or the profession from a few failures alone. We judge the work more by its actual accomplishments in many sections and as to whether, as a whole, it has given satisfactory service. On this basis the county agent

movement has succeeded."
"The county agent is becoming more and more the hub of the agricultural wheel, about which revolve the various personal and joint farm activities of the county. He is not so much an adviser as he is the "handy man" of the community, through whom and by whom farmers are brought together to their mutual advantage."

SINGER TO BRING GRAND-CHILDREN FROM GERMANY

New York.-Mme. Ernestine Schumann-Heink, famous opera singer, wept as she boarded the Holland-American liner Rotterdam. She told reporters that her trip to Germany is being made to bring back the two-little children of her son, August, who was killed when a German submarine struck a mine in the Mediterranean. He was an officer in the German navy when the war broke out.

The diva's three other sons served in the United States forces in the late war. She wore a bar with four service stars, one of which was for Au-

She declared her intention of bringing the small boy and girl to this country and making good Americans

A DAY'S WORK.

Calomel salivates! Its mercury. Calomel acts like dynamite on a sluggish liver. When calomi comes in it, causing cramping and nausea

If you feel bilious, headachy, con-stipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cnts, which is a harmless vegetable substi-tute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and and your money.

If you take calemel today you'll be sick and nauseated tomorrow; be-

sides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it.

#### HANG DOG PICTURE; GET CASH

Scottish National Galleries to Receive Big Fortune if Portrait Is Put Up.

London.—By merely hanging the picture of a dog, the Scottish National galleries may acquire a very substan tial portion of a fortune estimated at

Callum, the dog, belonged to James Cowan Smith of Bothamsall hall, near Retford, who died recently. Mr. Smith was very fond of dogs and kept a number of them. Mr. Smith had a pic ture of "Callum With a Dead Rat" painted in oils. Under Mr. Smith's will the trustees of the Scottish National galleries will receive part of his estate if they will agree to hang this picture "in a conspicuous place" in one of the galleries under their control.

To a servant Mr. Smith bequeathed his dogs with an allowance of \$1.25 a week for the keep of each of them and an annuity of \$350.

Six of Family Killed.

Grass Valley, Cal.—Two sons, two sons-in-law, two brothers and five nephews was the contribution of E. Ross, a farmer living near Grass Valley, to the allied fighting forces in the world war. In addition, another son was in San Francisco for the purpose of enlisting at the time the armistice was signed. One brother and five nephews, serving with the Canadia lost their lives in the first gas attack of the Germans in Flanders. Mr. and Mrs. Ross were once notified their son, Edward, was seriously wounded. He recovered and is now with the army of occupation in Germany.

Your Red Cross Is Still Busy

#### **RED CROSS EXTENDS ACTIVITIES TO BENEFIT RURAL COMMUNITIES**

HE Red Cross is your Red Cross, serving you at home, representing you abroad. It is for you, now that the war emergency is past, to make the most of its far-reaching ability to

serve. Home Service work, undertaken by the Red Cross Department of Civilian Relief, served in war time to aid the families of fighting men and to relieve

anxiety of soldiers in camps.
Out of experience gained in this work comes the Red Cross plan for the future. The common objective of all Red Cross work is to improve gen eral living conditions, to conserve the health and to promote the welfare of all people.

In the larger cities community improvement has already reached a high state of development. It is left for the Red Cross to assist in furthering such work at the request of established agencies.

But in the small cities and towns the Red Cross service is only limited by the interest and response of the public to the opportunity offered by the peace time extension of the Red Cross. Home Service is not charity work.

The Red Cross organization is open to all. All may benefit by making the most of its far-reaching ability to serve. Health, education, the development of the public health nursing idea and al-

lied forms of community betterment

work will be dealt with as individual

problems where Red Cross assistance **NEW DIRECTOR STATES** PLANS FOR R. C. EXTENSION

IN THE RURAL DISTRICTS O you know that there are 3,700 Heme Service Sections now operating under the Red Cross organization in the United States. Of these, 2,900 are in places having a population under

With these facts in mind the Bureau of Rural Organization has been created in the Red Cross Department of Civilian Relief, and Prof. E. L. chusetts College of Agriculture, has been appointed director. In the future every Red Cross worker is to be informed as to where the community can get help in other than Red Cross work, and will consider it part of his duty to connect the community with

those sources of help. "There are numerous problems," says Professor Morgan, "which can be met only on the basis of a county There are a number of counties in which this sort of work has been done and the following has been the gen-

eral procedure: "1. A get-together of the county-wide agencies for exchange of plans and projects and for mutual information about the work of each.

"2 A study of the county concerning the outstanding needs of the county as a whole and certain towns in particular.

"3. A conference of the people called by these various agencies. "4. The presentation by various agencies of their program of work for the coming year.

"5. Some sort of medium through

which the county-wide agencies may come together frequently to keep in touch with each other. "The Red Cross does not assume that it is a correlative agency with a

purpose of assembling other bodies. "It is the plan of the workers to de velop rural organizations in the various Red Cross divisions as rapidly as is feasible so that the development of the rural community, the heart and soul of country life, may be brought

REPORT SHOWS INCREASE IN HOME SERVICE WORK DURING THE PAST MONTH

HILE the new work of the Red Cross Home Service sections is being launched throughout Ohio, Indiana and Kentucky, the aftermath of war

cases is not being neglected. The last monthly report from the Civilian Relief office in Cleveland shows 108 home service sections or 144 in Kentucky. These 357 organized bands of workers have dealt with 40,709 families during the month—giving specialized information in 10,716 instances and rendering tangible service in 30.624 cases.

## **VETS TO MEET** IN LOUISVILLE OCTOBER 3 AND 4

State Convention of American Legion Will Sound Keynote Against Un-Americanism

#### BROAD PLATFORM IS ADOPTED

Louisville, Ky., August 4 .- (Special) When the soldiers, sailors and marines of Kentucky meet at the State Convention of the American Legion in, Louisville, October 3 and 4, as the representatives of 100,000 veterans of the world war, the keynote to be struck will be that of a new vigilance organization which will stand for the protection of American ideals and which will oppose with its full strength lawiessness in any degree, whether it is based on open adherence to Bolshevism or any other form of anarchy or whether it takes the more insidious phase of secret propaganda based on any kind of adulterated Americanism

Judge Henry De Haven Moorman, of Hardinsburg, State Commander, and Attilla Cox, Jr., Organization Chairman, declare that they reflect the views of the returned veterans when they assert that the new American Legion is standing firmly on the platform that pro-Germanism and its kindred are as odious today as ever.

"The Legion," states Commander Moorman, "is merely the continuance, in an organized way of the force for good which our 4,000,000 soldiers, saliors and marines represented in the war. They are organizing themselves so that demobilization of our armed forces will not have dissipated this great force. With an awakened conscience, regarding their individual and collective responsibility in a new light, they propose to keep America safe for

democracy. At a meeting in Louisville yesterday, the time of the State Convention was fixed and arrangements were made by Organization Chairman Cox to have every county represented in the deliberations of the first after-thewar assembly of veterans in Kentucky. An intimation of the great protective activities of the Legion is expected to be given during the meeting. George R. Ewald, of Louisville, is chairman of the State Convention Committee, which is working with the Louisville Convention and Publicity League in

planning the convention. Activities of the American Legion are well under way. Beginning August 4, a corps of volunteer workers left for a tour of the state, perfecting local organizations and making sure that Kentucky will be fully represented when the first national convention of the Legion is neid, beginning Armisice Day, November 11, in Minneapolis. Veterans are calling November 11

"American Legion Day." The American Legion will be a semigovernmental adjunct. Its incorporation in Congress is pending. It is behind various Congressional bills designed to make laws against alien and domestic disturbers more effective and to make 100 per cent Americanism a

reality. President Wilson has endorsed the In the American Legion. Weekly of July 25, a letter from the

President is quoted as follows: "I am happy to have this opportunity to address a word of greeting and comradeship to the men who have served in the Army, Navy and Marine Corps and are now banding themselves together to preserve the splendid tra-ditions of that service. I have had a chance to see these men on land and sea, at home and abroad. The spirit of their service was as splendid as its success, and the continuation of that spirit in the American Legion will make it always an inspiration to the full performance of high and difficult duties.

Kentucky headquarters, 714 Inter-Southern Building, Louisville, is a place of varied activity. A state employment bureau, under Emmet O'Neal, is in operation, and Mr. O'Neal is in touch with local posts which also have employment officers. Charles H. Moorman is War Risk Officer, co-operating with local posts in looking after insurance, bonus and compensation problems of the soldiers and sailors now back home. Colone! Arthur Woods, assistant secretary of war, has asked the full help of the Legion throughout the country in looking after the employment question. Lieutenant H. B. Turner, of his staff, at a conference in Louisville last week. arranged with Legion leaders and representatives of the War Camp Community Service, for the immediate opening of a central bureau in the downtown section. Lieutenant Turner is now visiting other cities in the state with a similar object.

Dr. Arthur McCormack, of Bowling Green, as rehabilitation officer, is pushing vocational training and at the same time is interesting medical men in the Legion. James P. Gregory is planning a speakers' campaign and is endeavoring to bring nationally prominent members of the Legion to Kentucky.

Another phase of activity at state neadquarters is the issuance of charters to local posts. Fifteen have been thus far and numerous others are in process of formation, according to D. A. Sachs, State Adjutant.
